

The Borderguard of the
Ministry of Interior
FORCES

Headquarters of the Borderguard of
the M. of I. (Budapest, Magyar building)
Co. in Chief: T. Valerianovich, mg. gen.

The headquarters was subordinated
to the Central Executive Rep. to the
Political Committee of the Party through
the person of the director of I. Under
the instructions of above organization its
sphere of activity comprised the totality
of the ~~borderguard~~ state defense func-
tion. This activity consisted of

(a) the hermetic closure and defense
of the borders of the Hung. People's Dem.
and the strict supervision of the entering
and leaving of Hungary

(b) the policing of the interior order
and security of the people's dem.

To provide this two-directional activity
Headquarters had 2 armed formations at
its command: The Borderguard and

the Interior Security Police Force.
The defense of the border was orga-
nized according to the following system:

The entire borderline of the People's
Democracy (2... kms.) was divided into
11 sections. For the purpose of shut down
and defense of these sections Borderguard
Districts have been organized in nearby
towns wherefrom the entire border-section
of the district could be approached.

on the ~~soft~~ and sharpest roads. Within the district battalions were organized and the border-section of the district was proportionately divided among them. The viewpoints in selection of the seats of the battalions were identical with those for the District. To close resp. to defend the border-section of the battalion units (ons) have been organized. These have been posted in the immediate vicinity of the border, the border-section of the battalion being divided among them. The duties of these units comprised the patrolling resp. frontier closure and defense of their section with their available forces.
